

Ingo de Pina

AI Growth and Operations Leader

linkedin.com/in/idepina | ingo.depina@gmail.com | Los Angeles, CA 90042 | (323) 449-4522

PROFESSIONAL SUMMARY

Results-driven AI & Operations leader with 10+ years of experience translating cross-functional complexity into scalable, automated systems. Proven track record of building GTM infrastructure, eliminating process friction, and driving measurable revenue impact across AdTech, SaaS, and growth-stage environments.

A practitioner at the forefront of applied AI in the enterprise — independently designed and deployed Poli, an AI-powered People & Culture assistant as a proof-of-concept demonstrating end-to-end operational AI maturity: real-time HR analytics, multi-region policy intelligence, live escalation tracking, and a conversational manager dashboard — built without an engineering team. CORE COMPETENCIES

Sales & Revenue Operations	Aligning sales tools and workflows with strategic selling initiatives to drive efficiency and performance
Data Analytics & Performance Insights	Building dashboards, KPIs, and sales insights to refine strategy and execution
AI & Process Automation	Implementing AI-powered tools to enhance forecasting, pipeline visibility, and seller productivity
AI Application & Workflow Design	Designing and deploying AI-powered tools and agents that automate operational workflows, surface strategic insight, and scale without adding headcount
Change Management & Talent Development	Leading enablement programs, training initiatives, and process transformation
Cross-Functional Collaboration	Partnering with Sales, Finance, Product, and Legal to reduce sales cycles and drive revenue growth

PROFESSIONAL EXPERIENCE

Revenue Operations Manager | MNTN Aug 2025 – Present

Enabling performance-driven CTV advertising through scalable RevOps systems and cross-functional alignment.

- Partnered with Customer Success to identify, capture, and measure expansion revenue opportunities in programmatic TV, digital video, and performance marketing channels
- Optimized systems and workflows for teams selling into CTV and digital video, reducing friction across the full sales cycle
- Enabled GTM alignment across Sales, CS, and Marketing to accelerate pipeline velocity and improve forecasting accuracy

Principal Sales Operations | LiveRamp Oct 2021 – Apr 2025

Optimized seller performance through tech stack, workflow automation, and GTM strategy execution.

- Saved reps 4.5 hours/week by optimizing Salesforce opportunity workflows by automating manual entries—generating 250 additional selling hours annually
- Cut SDR ramp time by 25% (5 weeks faster) by designing an onboarding program built around top-performer playbooks
- Grew quarterly pipeline by 30% by defining SDR pipe metrics and establishing attainment frameworks that drove a 13% boost in meetings and open opportunities
- Executed company-wide GTM strategy cross-functionally with Sales, Marketing, and Enablement leaders

Operations Consultant | Poche Reno Apr 2021 – Nov 2021

Established and standardized scalable selling operations for a high-growth renovation company.

- Drove an 8% close rate increase and \$300K+ in additional revenue by defining the ICP and building a structured pipeline process from the ground up
- Reduced sales cycle friction by automating the lead-to-opportunity workflow using Zapier
- Defined Sales roles within the team and set attainment goals based on company's quarterly targets
- Launched an Internship program to recruit, train, and produce new fully-ramped Sales and SDR members

Revenue Operations & Billing Manager | Elation Health Oct 2020 – Mar 2021

Developed scalable and compliant revenue tracking and billing procedures.

- Reduced revenue processing time by 25% by automating billing workflows and improving accuracy with Recurly
- Aligned billing processes with business objectives through close partnership with Finance and Product teams

Senior AR Analyst / Engagement Ambassador | Yelp Aug 2013 – Feb 2020

Optimized accounts receivable workflows and drove team engagement through career development initiatives.

- Cut monthly account closing time by 7 days by automating transaction reporting, a 30% reduction in processing time
- Upskilled team through Lumio learning platform implementation, improving engagement and productivity
- Streamlined revenue reporting by liaising across Finance, Sales, and Operations
